

## The CapinCrouse Church Financial Health Index™

---

It's crucial to ensure your church is using its financial resources as efficiently as possible, but it can be challenging to know what to monitor and analyze.

The [CapinCrouse Church Financial Health Index™](#) is an online tool designed to help churches measure and analyze their financial strengths, weaknesses, and trends to see where they have been and map the best route forward. It includes:

- Ratios and measures designed to help you **assess your church's financial condition** and identify and track key financial trends
- Benchmark and peer information to help you analyze your results and **make informed strategic decisions**
- An in-depth white paper discussing the importance of each ratio, measurement, and benchmark provided and how to **improve your results**, plus a report card with **recommended action steps**

CapinCrouse clients (including churches with annual engagements for audit, review, or compilation financial statements) have unlimited access to the Church Financial Health Index at no charge. Other subscriptions are available for churches that are not CapinCrouse clients.

To learn more about how the Church Financial Health Index can benefit your church, please visit [capincrouse.com/churchhealth](http://capincrouse.com/churchhealth).
