EMMANUEL, CLOVIS, USES MINI-GRANT TO BROADCAST LIVESTREAM OF SUNDAY WORSHIP SERVICES

Emmanuel Lutheran Church is getting a lot more attention lately thanks to a generous CNH District Mini-grant. The congregation has begun to Livestream its worship services on a weekly basis and to archive all past broadcasts.

The grant dollars and other funds have been used to buy the need iPhones, iPads, stands, microphones, and software for this ministry. Jim Deis, Coordinator for the Livestream ministry team, has trained several high school and college-age youth in the art of videocasting. The ministry team is utilizing Facebook’s Livestream under the church’s Facebook page, @EmmanuelClovisCA.

The results of this new ministry have been gratifying. People watch live from around the world. The ministry team has been in contact from viewers in Asia, Africa, and throughout the United States. Currently, the ministry team, the deaconesses, and the elders, are bringing the Livestream to the homebound and hospitalized.

Emmanuel congregation thanks the CNH District for its generosity in providing seed money to begin this outreach ministry.

In Christ,

Pastor Ed Krueger
